

*Hi! I'm Agata and I will be talking about my experience at the Erasmus program. Starting with internship because it was the main reason we went to Germany. Me and my friends are hairdressers, so our internship was taking place at a hair salon. We've mostly practiced hairdressing, but some days we were doing face masks or makeup. It was really entertaining, we've developed new skills and we got better at our own occupation. Internship wasn't the only thing there. We had a few trips during our stay. We went to Leipzig, Halle and Berlin. It was wonderful to see such an amazing places in person. I really enjoyed Berlin as well as most of my friends. But I have to admit it was very crowded. During the regular days, we had a lot of free time so we spend it on a lot of activities. In the resort we had access to volleyball court, football and tennis fields and much more. In the evening there were a club parties where we could spend time with people from other countries and interact with them. We have met such wonderful friends from various countries. At the time we were there, there were also 150 other participants! They came from all around Europe. From places like Spain, Latvia, Portugal, Serbia, Slovakia, Lithuania and many more. From my personal experience I've learned so much like learn new things about my occupation . I made new friends, practiced my language, learned about other cultures. I really enjoyed it there. Thank you for your attention.*

*During this period of time we had the opportunity to gain a lot of experience, regarding working abroad or learning about German culture. Our day usually looked like this: we worked from 9 with a break for lunch. In these activities everyone could find something for themselves and learn new things. Most days usually ended with free time where most participants integrated with groups from other countries or relaxed in their own rooms. Our group also had the opportunity to visit such towns and cities as Halle, Schkeuditz and Berlin. There, together with a guide, we visited the most interesting places. In general, I consider the whole trip successful and a large part of the participants would probably go again if they had the opportunity.*
